

AMENDMENTS TO THE CLAIMS

Claims 1-106 canceled.

107. (Previously Presented) A method for processing financial data, wherein said financial data relates to customer transactions at point of sale locations and wherein said customers have wireless devices that are in communication with a wireless network, said method comprising the steps of:

receiving financial data from a plurality of point of sale locations;

identifying a geographic area for a customer who has initiated a transaction using a wireless device, said identifying step accomplished by determining a specific wireless cell that is in communication with said customer's wireless device; and

determining which of said plurality of point of sale locations are within said geographic area;

if only one of said point of sale locations is within said geographic area, then communicating financial data for said point of sale location to said customer's wireless device over said wireless network; and

if more than one of said point of sale locations are within said geographic area, then prompting said customer to select a point of sale location from a list of said point of sale locations within said geographic area, and communicating financial data for a selected point of sale location to said customer's wireless device over said wireless network.

108. (Previously Presented) The method of claim 107 further comprising the steps of:

determining whether said customer has verified said financial data that was communicated to said customer's wireless device.

109. (Previously Presented) The method of claim 107 wherein said prompting step further comprises:

causing said customer's wireless device to display a list of said point of sale locations within said geographic area; and

receiving information from said customer's wireless device identifying said selected point of sale location.

110. (Previously Presented) The method of claim 107 wherein said prompting step further comprises:

playing a voice message to said customers via said wireless device, wherein said voice message comprises a list of said point of sale locations; and

receiving information from said customer's wireless device identifying said selected point of sale location.

111. (Previously Presented) The method of claim 107 wherein said identifying step further comprises the step of:

identifying a specific antenna that is communicating with said customer's wireless device.

112. (Previously Presented) The method of claim 107 wherein said financial data comprises:

product information detected using a bar code scanner coupled to a customer's wireless device.

Claims 113 –125 canceled.
